

SPAIN HAS A FRIEND IN SENATOR HALE

MAINE MAN SPEAKS AGAINST RECOGNITION.

Why He Opposes the Action On Behalf of the Struggling People—Other Senators Will Present Their Views On the Subject Today—Proceedings Before the House.

Washington, March 10.—In anticipation that the last stage of the Cuban question would be reached the senate galleries Monday were besieged by the greatest crowd seen since the session opened. All of the public and reserve galleries were filled to overflowing. At 1:15 Mr. Sherman moved the adoption of the conference report accepting the house Cuban resolutions.

Mr. Hale (rep., Me.) spoke energetically against the resolutions. He did not think the inflammatory statements made by senators in justifying the resolutions were backed up by facts. Mr. Hale said that the only explanation for the public and press clamor against Spain was that the country and congress had been falsely and mendaciously misled with conditions which did not exist. He referred to the statements made by Mr. Sherman as to the atrocities committed by Gen. Weyler. It has since been shown that this was an ingenious effort to fasten on the Spanish-Cuban situation of to-day events of fifteen years ago, but these alleged events were mendacious fabrications, fiction from beginning to end set up by somebody to distort public feeling. He also read from current news dispatches of the burning by the insurgents of thirteen towns and the destruction of tobacco and of the inhabitants wandering helpless and starving through the country. "These," said he, "are the methods adopted to defeat Spain."

"Here," he continued, "are the exalting details in a newspaper which sympathizes with the insurgents. Liberty," he added, "does not fight its battles in that way. Freedom often springs from prison bars, from burning lips—aye, from its own ashes—but not such horror and conflagration and devils' work. The heart stirred by the story of Bunker Hill, turns with loathing from such tales as these. It is not war but incendiaryism, destruction by the torch, murder and outrage. It is the wildest stroke of savagery. I will never vote to give aid and comfort to leaders whose exploits are thus chronicled."

Mr. Hale deplored the aggressive spirit of the last year; the desire to incite trouble; the building up of the instruments of war instead of those of peace; the turning aside from the plow and the taking up of the sword. This was militarism. There was but one result when militarism took possession of a great people. The arts of peace disappeared, and in their place came vast armament and the dominion of some great military chieftain. This was the growing spirit of the day in this country. Out of it all, however, Mr. Hale said he felt that the good sense of the American people would assert itself, bringing peace rather than war.

Mr. Hale closed at 3 o'clock. Mr. Mills urged Mr. Sherman not to endeavor to reach a vote, as several senators desired to be heard. Mr. Sherman yielded to the suggestion and the Cuban resolution went over.

Mr. Turpie (dem., Ind.) was then recognized for an argument against the claim of Mr. Dupont to a seat in the senate from Delaware. The senator had not concluded when the senate adjourned.

Proceedings in the House. Washington, March 10.—District of Columbia business consumed the major portion of Monday in the house. Among the bills passed was one to decrease the cost of gas from \$1.50 to \$1 a thousand. This was the outcome of a long fight against the gas company. The consideration of the postoffice appropriation bill was continued, but no important amendments were adopted.

The speaker announced the appointment of Mr. Hendricks (dem., Ky.) to the banking and currency committee.

A resolution was adopted calling on the secretary of war for estimates of the cost of repairing the breakwater at Cleveland, O.

Discussing Naval Appropriations. Washington, March 10.—Another step was taken Monday by the house naval committee toward the completion of its appropriation bill. The items for the support of the marine corps, which are practically the same in amount as those carried by the last bill, were settled, and some minor details. There remain the questions of the number of new battleships and the building of a dry dock at Algiers, near New Orleans, which may be considered today.

Notes Issued by National Banks. Washington, March 10.—The house committee on banking and currency voted to report favorably to the house the bill introduced by Mr. Johnson (Ind.) to permit national banks to issue notes to the amount of the par value of the bonds deposited by them in the treasury as security for their issue of notes.

Wants Another Man in the Cabinet. Washington, March 10.—Senator Frye has introduced a bill for the establishment of a department of government to be known as the department of commerce and manufactures, the head of which is to be a member of the president's cabinet.

OHIO REPUBLICANS.

State Convention in Session at Columbus—Factional Feeling.

Columbus, Ohio, March 10.—Joseph B. Foraker will be the temporary chairman of the state convention which holds its first session this afternoon, and the speculation all runs toward the senator-elect. During the last few days the feeling between the McKinley and the Foraker factions has intensified. The Foraker men claim they are working for a man who puts no faith in them and who is trying to wrest the party organization from them in order that they can claim no credit in case he is nominated. On the surface everybody is for McKinley. All the candidates on the state ticket who have opened headquarters insist that there is no factional fight; that all differences have been healed. While the Foraker factionists assert in common with the McKinley people that the entire state delegation will go to St. Louis and vote for the Ohio man's nomination, the accounts of the quality of the support differ widely. At present it is not on the program that Maj. McKinley will attend the convention.

Arkansas Populists to Meet.

Little Rock, Ark., March 10.—The populists of this state hold a convention at Eureka Springs Wednesday. The meeting is to outline a plan for the state and national campaign and to decide whether or not to fuse with the republicans on state offices. The leaders say they will nominate candidates in the six congressional districts and expect to carry the Fifty. If fusion is effected they hope to elect a large number of legislators and control the election of United States senator. H. E. Taubeneck will preside. Jerry Simpson is expected to be present; also Senator Allen of Nebraska.

Date of Summer Encampment.

Springfield, Ill., March 10.—Adj. Gen. Hilton has issued an order fixing the date for the annual summer encampment of the Illinois national guard. The encampment this year will be by brigades, and the commands will report at Camp Lincoln in the following order and remain in camp the dates specified inclusive: First brigade, July 11 to 18; 2d brigade, July 18 to 25; 3d brigade, July 25 to Aug. 1. Cooks will be allowed at brigade and regimental headquarters and line officers' messes only.

Rhode Island's State Conventions.

Providence, R. I., March 10.—The Rhode Island republican state convention is being held to-day and probably all the present incumbents of the state offices will be renominated. The democratic convention will be held Wednesday, and the ticket of a year ago is to be set up, with the exception of the nominee for secretary of state, George W. Greene, the present mayor of Woonsocket. His successor in the list of candidates has not been decided upon.

G. A. R. Commander at St. Paul.

St. Paul, Minn., March 10.—Commander-in-Chief I. N. Walker of the Grand Army of the Republic is in the city to confer with the local committee in charge of the national encampment and to attend the state encampment at Minneapolis. MANIAC RAN AMUCK WITH A REVOLVER

EIGHT MEN SHOT AT BROCKVILLE, ONT.

One Already Dead and the Wounds of Two Others Likely to Prove Fatal—Police Have Hard Work to Prevent a Lynching—LaPoints' Wild Work.

Brockville, Ont., March 10.—Eight men were shot Monday by a maniac named Lapointe, who alighted from a train. Peter Moore is dead, Chief of Police Rose is fatally wounded, Policeman Tinsley is badly wounded, but may recover, while five others received gunshot wounds which are not considered dangerous. The maniac himself was shot by a young bystander and sank exhausted to the ground, when he was captured and lodged in jail. The dead: PETER MOORE.

The wounded: Chief of Police Rose, terribly injured, and will probably die.

Policeman Tinsley, badly wounded; may recover.

It was just about noon when Lapointe came on the street carrying a shotgun. The first person he met was an old man named Peter Moore. Raising his gun, Lapointe deliberately shot Moore dead.

Chief of Police Rose, who was just coming from his office, ran in the direction of the report, and as soon as Lapointe saw him he took steady aim and fired at him, the shot taking effect in his breast and head.

Policeman Tinsley then appeared. Lapointe had his pocket full of cartridges and was shooting right and left at random. Tinsley got behind cover and endeavored to shoot Lapointe, but failed. He then got behind a door in a grocery store, and, partly opening it, had just taken aim, when Lapointe fired, the shot taking effect in Tinsley's head and neck. A young man who was in the store ran upstairs and from the window fired at Lapointe, wounding him. Lapointe quickly turned and fired into the window, after which he fell exhausted to the ground. He was then captured and lodged in jail.

A large crowd gathered at some distance from Lapointe while the shooting was going on, but none dared approach within range of his deadly weapon, which was a double-barreled breech-loading shotgun. Intense excitement prevailed among the maddened crowd, and it was with much difficulty that it could be restrained from lynching Lapointe on the spot.

Lapointe is a hunter, living about eighteen miles out of town, and an expert shot. He has shown signs of insanity at times.

SUFFRAGE MEASURE.

Iowa Senate Takes the Resolution for an Amendment from the Table.

Des Moines, Iowa, March 10.—Senator Kilburn, in charge of the woman suffrage measure in the senate, secured consent Monday to take from the table the resolution providing for the submission of a constitutional amendment for woman suffrage. It was placed in regular order on the calendar.

A constitutional question has been raised relative to the cigarette bill passed last week. It was considered by the code-revision committee of the senate. The lawyers cite decisions of the Supreme court to the effect that tobacco is a legitimate article of commerce, and that the legislature cannot prohibit the shipment into the state and sale therein in original packages of cigarettes. The most that can be done is to prohibit the sale to minors and of adulterated goods. A bill to this effect has been prepared by Senator Trewin.

Kentucky State Senator Dead.

Frankfort, Ky., March 10.—Senator Rosel Weissinger of Louisville died at 11:40 o'clock Monday morning. He had been ill with pneumonia for several days, but it was hoped he would recover. There was a great crush of spectators at the capitol in expectation of a renewal of the exciting scenes of Saturday. But the joint assembly, after the formality of a ballot in order to comply with the law, only three members voting, adjourned on account of the death of Senator Weissinger. Afterward each house met and appointed committees to attend the funeral. It is doubtful if Mr. Weissinger's death will cause such a change in the situation as will give the republicans power to elect.

Cullom Still in the Race.

Washington, March 10.—Senator Cullom said last evening, regarding a story as to his probable withdrawal from the race for the presidential nomination: "There is not a shadow of foundation for the report. The suggestion could only have been advanced by those who would like to have me out of the way, and with the malicious purpose of misleading the republicans of Illinois and the country. I have no intention of withdrawing and will not withdraw. Put that as plainly and as emphatically as you can find words with which to express the idea."

SPANIARDS LOOKING FOR A BIG RUMPUS

POLICE DEFEND OUR CONSULATE AT BILBAO.

Twenty of the Mob and Several Officers Badly Wounded in Desperate Conflicts—Determined Efforts to do Injury to Americans—Blood Flows as the Result.

Madrid, March 10.—The turbulent element in the city of Bilbao which created disturbances Sunday continued to defy the authorities yesterday, and made violent demonstrations in spite of the armed threat of the gendarmerie. The disorders were renewed near the American consulate and a determined effort was made to reach the building where the consulate is located. The gendarmes showed equal determination in frustrating this attempt, and succeeded.

There was a serious collision between the mob and the gendarmes, in which twenty of the former are known to have been injured, though it is not stated that any fatalities resulted. Nine of the gendarmes were also injured. With this rebuff the mob drew off. But the inhabitants of Bilbao are still in a turbulent mood, and the police authorities find it necessary to take every precaution to guard against injury being done to the United States consulate.

Elsewhere in Spain the situation bears a more tranquil aspect and the question of the action of the United States on Cuba is regarded in a calm mood.

A report found currency that the United States minister, Mr. Taylor, had left Madrid, but this proved to be wholly without foundation.

A dispatch from Havana says that the insurgents are in a demoralized condition and are seeking flight toward the eastward portion of the island.

ANTI-AMERICAN MOB.

Threatens Another United States Consulate in Spain.

Bilbao, Spain, March 10.—There was another anti-American riot Monday and it was of greater importance than the previous so-called patriotic disturbances caused by the action of the congress of the United States in regard to Cuba. About 12,000 people took part in the afternoon in the popular demonstration. The excitement was started by a group of young men at a street corner who began cheering every soldier who passed by. Their conduct was soon imitated by other groups of people until every soldier seen was cheered by the crowd and some musicians who refused to repeat the national anthem were hustled, beaten and otherwise maltreated.

The excitement increased and riotous groups formed in the main streets, cheering for Spain and denouncing the United States. The authorities did everything possible to maintain order. Almost the entire police force was turned out as soon as the populace assumed a threatening aspect and the rioters were dispersed again and again. Eventually, however, the mob became so numerous and excited that the police were almost helpless. After the first demonstrations of sympathy with the army, the crowds had armed themselves with sticks and cudgels and their numbers were so great that the police were swept aside and an immense crowd gathered on the leading thoroughfare and marched toward the residence of the United States consul, shouting: "Long live Spain!" "Down with the Yankees!"

SWEDES TAKE THE CITY.

Rockford, Ill., Thronged with Delegates and Visitors.

Rockford, Ill., March 10.—The second annual convention of the Swedish-American Republican League of Illinois opened in Rockford Monday with an attendance of hundreds of delegates and visitors. President Edward C. Westman of Chicago, in an interview, said there would be 2,500 Swedes here. He said the convention would declare for McKinley. He did not think that the convention would endorse any of the state candidates.

Monday was devoted to a celebration of the birthday of Capt. John Ericsson, the Swedish inventor, who designed the Monitor. Mayor Brown will deliver the address of welcome at the opening of the business meeting at 9 o'clock. Indications are that the gathering will be the greatest gathering of Swedish people ever held in the state.

The new organization is expected to take up the work of reform where the prohibitionists left off.

QUARTER OF A MILLION LOSS.

Louisville Warehouse and Contents Destroyed.

Louisville, Ky., March 10.—Warehouse No. 3, of the Union Warehouse Company, on Magnolia avenue, between Seventh and Ninth streets, was destroyed by fire early on Monday, together with its contents. The building was filled with merchandise, consisting mainly of cotton, tobacco, lumber, farming implements, hay, etc. The fire is supposed to have originated from a spark from a passing freight engine. J. L. Gardner, secretary and treasurer of the company, estimates the loss at about \$250,000, if not more. He says the building was worth \$30,000, insured for about \$20,000. Warehouses 1, 2 and 4, adjoining, loaded with goods valued at several million dollars, were protected by fire walls.

## HOT SHOT IS FIRED AT THE COMPANIES

### ALDERMAN BURNHAM SPEAKS OF INSURANCE RATES.

Corporations Do Not Appreciate the Protection Given Them In Janesville and He Wants Them to Be Made to Realize It—A Busy Meeting.

The common council last night: Heard Alderman Burnham's remarks on the question of increasing the protection given insurance companies without the companies showing proper appreciation thereof by reducing rates to a just sum.

Heard the notice of claims for personal damages filed by Mrs. Victoria Hyer and Frederick Hyer.

Heard the report of the Highway committee on the expense of the stone crusher and roller, and adopted the same.

Heard the committee's minority report and refused to adopt it.

Passed an order directing the chief engineer to examine all places where explosives are kept, once a week and make complaint where the city ordinance was violated.

Passed the "fire limit ordinance" after amending it.

Passed an ordinance giving the chief engineer the right to pass upon the safety of electric wires.

The session was rather a busy one. All the aldermen were present except Alderman Sutherland. The reports of the board of education, municipal court and the quarterly and annual reports of the city treasurer were all received, the former two being reported as correct and further time asked on the latter.

Mrs. Victoria Hyer and Frederick Hyer whose claim for damages because of a fall in front of Mrs. A. E. Burpee's home has been noted by The Gazette, served legal notices on the city which Clerk Badger read and the judiciary committee was given further time to look into the matter.

Murphy Assessed Illegally. James Murphy's affidavit setting forth that he had been assessed sixty eight cents on a horse he did not own, was read and the amount afterwards ordered refunded.

Sixteen property owners asked for an electric light at the corner of Milwaukee avenue and Clarence street and the gaslight committee was given further time to investigate.

Chief Engineer Spencer's quarterly report was read, received and filed. It said that nine alarms had been answered since December 31, '95. G. A. Proctor's barn being the only fire where the loss was at all large. All the apparatus was reported in good condition.

On motion of Chairman Heddles of the finance committee, a number of bills were ordered paid, and \$1.81 was ordered refunded to C. J. B. Pabst, being an overcharge of taxation.

Chairman Hemming of the highway committee, presented the majority report of that committee regarding the cost of crushing stone and using the roller. Its provisions were as follows:

What the Report Said.  
1. That the amount of crushed stone that had been used upon the streets of the city since the purchase of the stone crusher and roller, be ascertained, and the amount used in each ward be paid for from the funds of such ward.  
2. That in view of the fact that the work so far done has been largely experimental and for the purpose of becoming familiar with the management of the roller and crusher, the sum paid for fuel and the services of the engineer be paid from the general fund.

3. That hereafter accounts be kept by the street commissioner from which the expense of preparing any given amount of stone and of placing the same upon the streets, can be ascertained, and that the expense of repairing or macadamizing streets be paid either by the ward fund or by the proper property owners, as the conditions of each case may determine.

The Minority Report  
Alderman Burnham then introduced the following minority report:

TO THE HONORABLE THE MAYOR AND COMMON COUNCIL OF THE CITY OF JANESVILLE—GENTLEMEN: The undersigned, a minority of the common council on highways, streets and bridges, to whom was referred the matter of adjusting and charging to the various wards their share of the expense incurred in operating the roller and stone crusher, desires to submit the following as his report:

In addition to the amounts reported by the majority of the committee to be charged back to the various wards in which the work was done, he finds from the records of the council that there has been paid from the general fund \$21.50 for fuel and \$38.00 salary of engineer, making \$59.50, which the committee do not propose to charge back to the wards. There was some work done on Franklin street, opposite the public square, which is properly chargeable to the general fund. The street commissioner reports crushed stone in the bin to the value of \$19.50. This and the amount of the work opposite the park should be deducted from the \$59.50 and the balance charged back to the wards.

First, Fourth and Fifth wards. Any other course is in violation of the charter and unjust to the wards in which no work has been done. He would therefore recommend the adoption of the following resolution:

RESOLVED, That the city clerk be and is hereby instructed to ascertain the cost of operating the roller in repairing the east half of Franklin street opposite the public park and deduct that amount and \$19.50, the value of the crushed stone now on hand, from \$311.50, and apportion the balance to the First, Fourth and Fifth wards, according to the amount of labor performed in the same, and certify the amounts so found to the city treasurer, who is hereby instructed to transfer them to the general fund, respectfully submitted. S. C. BURNHAM.

Amendment Was Lost.  
The amendment was lost, the vote being seven against it and two for it.

Alderman Burnham and Winslow. The majority report was then adopted, all voting aye except Alderman Burnham and Winslow.

Alderman McLean's order that West Bluff and Adams street south of Pleasant be repaired was passed and was also Alderman Hemming's order that the city treasurer transfer the sum of \$175.20 from the Fourth ward fund; \$73.65 from the First ward fund and \$1.40 from the Fifth ward fund to the account of the general fund, this being the cost of the crushed stone used in the above wards.

By Alderman Smith—Directing the chief engineer to make a personal examination at least once in each week of all places where explosives are kept and to make complaint in each and every instance of violation of the ordinance.

By Alderman Winslow—For a plank cross walk across South Third street, east side of Wisconsin street.

Also that the mayor appoint a committee of two to purchase one dozen chairs for the council chamber. Also that the chairman of the fire and water committee put in a bath tub with hot and cold water at the east side engine house at a cost not to exceed \$45.

By Alderman Heddles—Directing the street commissioner to serve a legal notice on the owner of lot 76, Smith & Bailey's addition to Janesville to build a sidewalk on the north side of said lot on Ravine street. Also to transfer \$43.75 from the Fifth avenue grading fund to the general fund, being the amount paid out of the general fund for arbitration.

Fire Limit Ordinance.  
Alderman McLean then moved to take up the fire limit ordinance, and amend it by striking out a part of Chapter 5, relating to wires, which was done and the ordinance was passed.

Alderman Burnham said that while this ordinance was apparently for the benefit of the city, it was really for the benefit of the insurance companies. The able representative from the Second ward had some hot shot for the insurance companies and proceeded to discharge it. He said that while the city maintained as good a fire department as she could afford, and surrounded property with all the safeguards possible, that the companies did not appreciate it, and did not make just rates. He thought that if they were deprived of one of the protection that they might see the light. The fire limit ordinance he thought the insurance companies should understand the feeling and therefore expressed his opinions. The citizens, he said ought to get some benefit of the protection afforded.

Mayor Baines said he thought the ordinance was for the benefit of the people. He could not get insurance to exceed three-fourths of the value of his property.

"But your property is not inside the fire limits," suggested Ald. Burnham. "No," replied the mayor.

Alderman Inman thought that the matter of rates was chargeable to one man—the one who attended to the territory, and that he was the man to reach.

The ordinance was then passed, all voting aye.

New Wire Ordinance.  
Alderman McLean then introduced "an ordinance defining the duties of the chief engineer of the city of Janesville in regard to electric wiring and appliances," which regulation provides that it shall be the duty of the chief engineer to cause the enforcement of all ordinances of the city, regulating the stringing of wires; that whenever in his judgment an electric wire or appliance shall be defective by reason of improper or insufficient insulation or for any other cause, he shall notify the person or company owning or operating the same to remove such defect and such person or company shall forthwith cause such defect to be removed. The chief engineer or other competent person delegated by him shall have the right at any time to enter any building in the discharge of his official duties, or for the purpose of making tests of the electrical apparatus or appliances contained therein, and for that purpose he shall be given prompt access to all buildings, public or private, on application to the person in charge or control of the same. Whenever at any fire, any electrical wire or electrical current may, in the judgment of the chief engineer, interfere with the work of the fire department, he shall have the power to remove such wire and to cause such current to be turned off and the person in charge of any electrical power station, shall forthwith turn off such electrical current upon being notified so to do by the chief engineer. The penalty for a violation of this ordinance, or failure to comply with the chief engineer or person delegated by him, shall be not more than \$100 nor less than \$5.

The ordinance was passed, all voting aye, and after Alderman McLean had stated that Mr. Nichols would begin the work of getting out the Janesville edition of "Headlight" at once, the council adjourned.

A small but appreciative audience heard George E. Adams' lecture at the Good Templars hall last evening. The lecture dealt with patriotic, humorous and temperate topics, and those who did not attend missed a treat that is not to be had every day.

## JANESVILLE RELICS ARE ON EXHIBITION

### BOWER CITY REPRESENTED AT MILWAUKEE SHOW.

Number of Colonial Mementoes Owned In this City Astonished the Local Chapter of the D. A. R.—Local Exhibition Is Planned—The Cream City Meeting.

Janesville people added a considerable display to the collection of colonial exhibits at the Milwaukee show, given under the auspices of the Daughters of the American Revolution.

The local chapter of the order was surprised to find so many relics in the Bower City, and is now going to give an exhibition in this city.

Janesville ladies took an active part in the Milwaukee project, which opened at the Athenaeum this morning, and will continue through tomorrow. As for that, much interest in the affair has been felt throughout the state. Ladies of Green Bay, Madison, Kenosha, Oconomowoc, Waukesha and Whitewater have hastened to offer their store of treasures which have in many cases been heirlooms in their families for generations, and Milwaukee's old families have poured in their wealth of rare and precious articles, so that the large Athenaeum will be taxed to its utmost to hold the exhibit.

A loan exhibition of such a character has never before been undertaken in the state; and when the ladies of this patriotic society conceived the idea of getting together such a collection, they had no idea of the enormous amount of rare and antique things which are owned not only in Milwaukee, but all over Wisconsin. The collection will consist of old furniture, old silver, china and glass, old lace, fans and miniatures, uniforms worn in ye olden times by gallant soldiers of '76, gowns in which our state's granddames appeared and courted before General Washington and his lady, or sat at table perhaps with the gallant La Fayette; also costumes which were worn at the Court of France, and one which is said to have been worn at the Court of Queen Elizabeth.

To Decorate the Building.  
The building will be appropriately decorated with flags, some of which have waved over charging columns of union soldiers, their smoke begrimed tatters silent witnesses of the patriotic deeds of bygone days. One end of the large hall will be partitioned off to form two rooms, a kitchen and a parlor of the days of our Pilgrim Fathers. In the kitchen will be an old fireplace fitted with real old andirons and crane, the chimney corner and old settle, spinning wheel and two old chairs which came over in the Mayflower, needing only the stalwart form of John Alden and the fair piquant face of the puritan maiden to complete the picture.

The parlor will be furnished not unlike the colonial reproduction so popular nowadays, except that its furnishings will be genuinely old spindle legged straightbacked chairs, claw footed tables and all the accessories which went to make up the keeping room furniture. Two chairs which will be in that room were in the White House when Dolly Madison presided there.

Some Interesting Relics.  
Among other precious and interesting relics are: a china punch bowl which came over in the Mayflower; a china breakfast set which once graced the sideboard of George Washington; a table cloth used at a banquet given to Generals Washington and La Fayette; a fruit dish also used at that banquet; a gown worn by Lady Hamilton at a colonial ball before revolutionary days; a silver teapot which is said to have belonged to the lost daughter of France; a jackknife owned by Josiah Bradshaw, a signer of the Declaration of Independence; Miles Standish's hatchet and a few small pieces of the first coffin in which George Washington was buried.

In the department of books and manuscripts a large and important collection has been gotten together, and there will be rare old books of all descriptions, and dating back some of them, to the early part of the 16th century; old documents; old bibles; original copies of magazines; autograph letters from the country's celebrities. There will be a bible once owned by Israel Putnam; a certificate of the order of Cincinnati signed by Washington and Knox. Mrs. Matthew H. Carpenter will loan some very interesting things, among them being an autograph letter of Alexander Hamilton; John Adams' address to the senate and house of representatives, signed by his own; Aaron Burr's note book; autograph letters from Daniel Webster, General Grant and the greatest man of the century, Abraham Lincoln.

Letter Written by Washington.  
There will also be a letter and a check written by the "Father of his Country," a curious old map of the world made in 1619 and many instructive and valuable papers relating to the early history of Wisconsin. An interesting programme has been prepared for Tuesday evening including singing of patriotic songs by a male quartette and an address by Colonel H. B. Turner of Chicago and Governor Upham and his staff will be present in full dress uniform.

The objects of this great patriotic society are to perpetuate the memory of those who "fought and bled in freedom's cause," to preserve revolutionary documents, protect historical spots, stimulate the spirit of patriotism, erect monuments or endow chairs of history and the ladies of

Milwaukee Chapter are all enthusiastic workers and have an ambition to "do noble deeds," and they are giving this exhibition to raise funds to carry on some patriotic work.

Indian Curios Also  
Differing somewhat from the main features of the exhibition, but still of great interest, will be a large collection of Indian curios in which are a great number of rare and almost priceless baskets made by Pacific Coast Indian tribes which are now nearly extinct, Navajo and Chiricahua blankets, tatem poles, Indian pipes, a wonderful old Indian saddle, a tobacco pouch made from the skin of an Indian's leg, battle axes, tomahawks, arrows and arrow heads. There will also be a department of Egyptian curios and many articles of untold value from Eugene Field's priceless collection.

A feature which will lend additional charm to the exhibition will be the presence of the "Daughters" in colonial costume, and for this purpose old trunks and lavender scented chests have been ransacked for gowns, laces, caps and kerchiefs to do honor to the occasion, and the visitor will at the door step from the end of the 19th century back one hundred years to pay his respects to courtly dames and Puritan maids and matrons. The affair promises to be a great social success and at the same time will be of incalculable benefit and pleasure to students of history and lovers of the antique and curious.

FINE VOCAL CONCERT GIVEN.  
State School For the Blind Glee Club Give an Entertainment.

The Glee club of the State School for the Blind gave a delightful concert at the Court Street M. E. church last evening and astonished the audience by the finish with which difficult music could be rendered by those who were unable to learn to sing by not. Applause was liberal and encores were plenty. Superintendent Bliss extended the thanks of the club and the school and invited the public to come and see the institution. Almost before he had ceased to speak, Dr. Halsey's motion that a vote of thanks be given the club had passed with enthusiasm that reflected the appreciation of the audience. All the accompaniments were played by Mrs. Jones, and the program was as follows:

Although it is a little early perhaps to purchase bicycle shoes, it is not too far in advance to see the good things and think about them. You certainly will be interested in this shoe.

## J. M. BOSTWICK

THE BIG STORE 20, 22, 24, 26 S. MAIN ST. JANESVILLE, WIS. WE KEEP THE QUALITY UP

## Laces and Veilings

Trifles light as air, yet with a price weight that makes them heavy enough unless you look before you buy. You pay a smart price some places for the some places for the same laces you can get here at a fair price. We don't ask a fancy price for a veil simply because it is fashionable or a new mesh; a conscientious dry goods profit is on all of these goods; a fair price is all we ask, no more. Our new showings are marvels of beauty. Matched sets in Valenciennes, lovely things. The new embroidered batiste insertions in white, ecru and linen. All over embroidered batiste in linen color. Vals in linen shade. 50 pieces of handsome laces at moderate cost.

A new skirt to match your old waists means nominally a new dress so far as street wear is concerned. It's a simple way of settling the question of what to wear 'till the new spring gowns are ripe; take a look at our skirts, see if they meet your notion of a good thing to piece out your wardrobe.

## Carpets

It is scarcely the thing to go into rhapsodies over the beauty of our new carpets. You might call it silly to speak of style in connection with commonplace floor coverings that you tread under your foot. Maybe you are right. We will confine ourselves to their goodness, their wearing qualities, the variety and low price. We leave style and beauty for you to discover, and you'll do it, you'll talk about them.

## Underwear

With mercury on a sliding scale, spring one day, mid-winter another, one has to be careful. Warm underwear is indispensable. It is most dangerous to take chances now. We have a better assortment now than most stores had last fall. We can give you anything you want in underwear—light, medium or heavy—with a price that saves you money. It's a good investment to buy underwear now for next winter at our present prices.

His early life was passed in the army in Algeria; afterward he engaged in financial speculations. In the coup d'état of December, 1851, he was the general and prime minister of the aspirant to the throne. De Morny resembled Napoleon in feature, but possessed a better figure and more elegance of manner. A Ruling Adverse to the City Made Today.

NO GROUND FOR ANNULING THE CHARTER.

Justice Marshal Reviews the Allegations in the Case and Says the Charges Are Met By Affidavits So Fully that a Suit Would Not Be Justified—The Statements of the Attorneys Interested.

An abrupt stop was put on the supreme court proceedings to annul the franchise of the Janesville Water Company today.

A ruling was given out at 10 o'clock denying the petition of the city of Janesville to bring suit against the Janesville Water Company in the name of the attorney general.

Some time ago a petition to bring suit was denied on the ground that the defendant company had not received due notification. The merits of the case were not passed upon, and today was the first time that the supreme court made any declaration on the grounds of action. A very thorough presentation of the case was made by both sides, the franchise of the company, the by-laws, rules for the guidance of water consumers, and many affidavits of consumers and others, being offered in evidence. The city's case was prepared by M. G. Jeffris and John Winans, while the company was represented by Edward M. Hyzer, Wm. Eger and W. G. Wheeler.

Billings of The Supreme Court. A dispatch from Madison to The Gazette outlines the decision of the court on the case as follows:

"The supreme court this morning refused to grant leave to bring action to forfeit the charter of the Janesville Water company. The opinion was by Justice Marshall.

"After reviewing the facts of the case he stated that the remedy asked was an extraordinary one, one to be granted with care. He reviewed the allegations set forth as a basis of action and concluded:

Answered By Affidavits.

"The allegations of the petitions presented, in respect to violations of franchise in matters pertaining to the operation of the works and the water service, are so overcome by affidavits and other proofs that the case in that respect fails to show any warrant for the institutions of proceedings, to forfeit the franchises of the corporation.

Watering Stock Not Enough.

"Watering of stock is held to be not sufficient cause for action, and the same with neglect to keep accurate accounts of cost and expenses. The delay in asking leave to bring action, along with other grounds, is stated as sufficient reason for denying the leave."

Legislature May Be Petitioned.

"I haven't heard of the opinion of the court as yet and therefore am unable to say what will be the next step" said M. G. Jeffris as he was leaving for Chicago this noon. "If the courts will not act in the matter the legislature may as there are a number of similar cases pending.

Other Cases Not Checked.

"The decision does in any wise affect the action pending to get at the cost of the works. That will be prosecuted without regard to this decision which simply concerns the question of whether the state will bring the action."

What the Company Gains

"This simply gives the company the right to continue as a corporation, leaving the rights of the city to be determined in the other action. The legislature can annul the franchise by an act which can be passed on the petition of the city."

Happy Over the Result

"The result was what we expected," said E. M. Hyzer, secretary of the water company, "but we were not sanguine of being upheld so fully in the preliminary hearing. Now that the litigation has come to an end we will have more time to devote to the perfection of our service and will prove to Janesville people that they can have whatever they ask for. Like a good many other people we can be coaxed much easier than we can be driven. We are disposed, as we have been from the first, to give the city the best services that can possibly be had."

Mayor Baines Speaks.

"Of course I am disappointed over the outcome of the case," said Mayor F. S. Baines, "and had hoped that the city would get a chance to present its case fairly before the court so long as it had begun litigation, although I have been from the first anxious to settle the matter peacefully, if it could be done. I think there should have been some way to reach a settlement with the company that should have made much of this controversy unnecessary."

Something Nobby For Spring.

We have added to our stock a line of top coats for spring which good dressers will appreciate. Call in and look at them. We have been told by people who know how a spring coat should fit that they have never seen finer fitting garments turned out by any tailor than we have in stock. Would be pleased to show them to you. Ziegler.

## HIS DEATH WAS DUE TO A HORSE'S KICK

HENRY GARDNER'S DEMISE RESULT OF INJURY.

Went Out Too Soon After Being Hurt, and Catching Cold, Suffered a Relapse and Pneumonia—Mrs. Ann Herkimer, aged Eighty-Two, Is No More—Other Deaths.

The funeral of Henry Gardner will be held from the residence in Magnolia tomorrow. Further particulars of his demise have been received, and it is said that the direct cause of his death was a kick from a horse he received some time ago. The shoe struck an enlarged vein in his groin and he was laid up many weeks. An operation had to be performed and he recovered to make a trip, but in his haste to be out he contracted a cold and suffered a relapse followed by pneumonia that ended in death. He was a native of Kentucky and was about fifty years of age. A wife and five children, from twenty years to a babe of six months survive him. He was one of the most successful horse buyers and gained the confidence and friendship of all with whom he ever dealt and made friends even in ordinary conversation. Janesville people knew him well and his death was a shock to all his acquaintances.

George Ottman.

George Ottman, formerly of this city, died at Chicago yesterday. Mr. Ottman leaves a widow, one son, two brothers and two sisters. His brothers, Theodore and Joseph Ottman, and his sister, Miss Jennie Ottman, reside two miles south of the city. The other sister resides in New York City.

The Chicago Times-Herald says Mr. Ottman was sixty one years that he was one of the pioneer merchants of the city and was a member of the firm of Potter Palmer & Cox. He was a native of New England and came to Chicago when the city was just coming into prominence as a commercial center. After a long and prosperous career here, Mr. Ottman went to Colorado and invested heavily in mining properties with unfortunate results. He came back to Chicago a year ago and went into the jobbing trade in clothing at 279 Madison street.

Elias Fockler.

Elias Fockler, father of Mrs. Irene Fockler Hallowell, died in the county insane asylum yesterday afternoon and will be buried in the town of Center tomorrow. Mrs. Hallowell came from Chicago this noon to look after the arrangements for the funeral. It is not known whether her mother, who is in Hudson, South Dakota, will be able to make the trip or not. Mr. Fockler had been of unsound mind for some years and had been in the Rock county asylum for a year and a half. He was a well known resident of the town of Center and had many friends there and in Janesville. He was a warm friend of Miss Frances Willard's parents, and the acquaintance begun in that early day resulted in his daughters' being chosen as Miss Willard's secretary, which position she filled until her marriage a few months ago.

Mrs. Sarah Brown.

Mrs. Sarah Brown, for years a resident of this city, died in Appleton Thursday of last week and was buried Saturday afternoon, Rev. John F. Fawcett officiating. Mrs. Brown was a native of Vermont. She was the widow of Jason Jones, who enlisted in Co. D. Second Wisconsin Infantry, and was killed at the battle of Bull Run, and was a sister of General George Stannard, who commanded a brigade in the Eighteenth corps in 1864. Her children were: W. B. and Luke Stone, of Pipestone, Minn.; Mrs. W. A. Carpenter of Milwaukee; Mrs. Thomas Schutte and Myra M. Brown, of Appleton, and the late Mrs. Josiah Crall of this city.

Mrs. Ann Herkimer.

Mrs. Ann Herkimer died at her home at 7:30 o'clock this morning, her demise being the result of old age. Mrs. Herkimer was the daughter of Rev. John Farley and was born in the town of Warren, Herkimer County, N. Y., Feb. 3, 1804. In 1829 she was married to Warren Herkimer. She removed from Little Falls, New York, to this city in 1854 and has since resided here. She leaves four children, two sons and two daughters, Amanda, Horace and Charles Herkimer of this city, and Mrs. Maria H. Brayton, of Washington, D. C. The funeral will be held at 2:30 o'clock Thursday afternoon.

## GET APPETITE.

If You Don't, You Will Never Be Strong or Healthy.

Appetite is one thing that you can't afford to be without, for without it your health, strength and comeliness flies out of the window.

Poor appetite means weak stomach, starved body, sick individual. Good appetite the opposite.

Poor appetite is a sign that your stomach is too weak for digestion. You can aid it with the Shaker Digestive Cordial.

When your stomach is able to digest all the food that the body needs, you will have a good appetite. Not before.

Good food, well digested, means strength and a long, healthy life. Undigested food creates poison which affects the whole body, and may give you headache, dizziness, nausea, constipation, flatulence, languor, weakness, mental depression, stomach-ache, fever, nervousness, offensive breath, anæmia, rheumatism, etc.

All these disorders will be relieved if you will take Shaker Digestive Cordial.

It is a pure vegetable digestive and natural invigorator, which aids the stomach, purifies the system of the poisons of indigestion and makes you strong, fat and healthy.

Shaker Digestive Cordial does not act on the liver, but on the undigested food in the stomach. It cures indigestion or biliousness without irritating the liver or any of the internal organs.

At druggists. Ten cents for a trial bottle. Write for free book to The Shakers, 30 Beade Street, New York.

## Neighborly Comments.

Sisyphus was busily engaged in rolling the stone up to the top of the hill and letting it slide back again.

"It's pretty monotonous, isn't it?" remarked one of his acquaintances.

"Yes. But I could get used to it. I could get along very well if it wasn't for people who come along and make remarks. I guess about 700 people a month tell me to 'never mind; life always has its ups and downs.' And not less than 20 a day ask me if I don't know that a rolling stone gathers no moss."—Washington Star.

## One on Mr. Chaffie.

Mrs. Chaffie—What are you howling about, Johnnie?

Johnnie—Mamma gave me a licking, and said I was a b—bad b—boy.

Mr. Chaffie—She is right about it; that's just what you are.

Johnnie—And—and—she—she—she said I'd g—grow up to be just such another worthless scamp as my father.—Dallas (Tex.) Sifter.

## Between Two Fires.

"I wonder why they say a woman bestows her hand when she marries."

"Well, she isn't supposed to realize until afterward that she has put her foot in it."

Pausing for an instant, she debated with herself whether she would go to the baby, who was drinking oil from the sewing machine can, or to the steak, which was burning.—Detroit Tribune.

## Why She Was Mad.

Mother (suspiciously)—What makes your lips so red? Has that young man—

Sweet Girl—No, he hasn't. If my lips are red, it's because I've been biting them. I was mad.

"Mad because he tried to kiss you?"

"No. Because he didn't."—Waverley Magazine.

## Taking Thought of the Morrow.

"I'd rather live rich and die poor than live poor and die rich," remarked the dissatisfied person.

"Well, nobody has denied you that privilege," said the complacent man.

"But what worries me," moaned the dissatisfied person, "is how I am going to keep from both living and dying poor."—To Date.

## Light on the Mystery.

First Detective—Ah-ha! Now I understand why the safe was not blown open. The burglary was committed by a woman.

Second Detective—How do you know?

First Detective—Here's the hair-pin.—Puck.

## A Plausible Explanation.

"Allers seems to me," said the grocery brack, "that after ole Jim Bilwaller hez put in Sunday tellin' the Lord that he is the orneryest ole cuss on earth he puts in the rest of the week tryin' to see if he kin live up to it."—Indianapolis Journal.

The angel, bearing a female shade, paused at Heaven's gate and knocked. "No need of disturbing the inmates," said the shade, fumbling with her Psyche twist; "just wait till I get a hair-pin."—Judge.

## Had His Doubts.

"Your sister is a Christian girl, I hope," said Deacon Myer.

"She used to be," said Johnny. "But she lately joined the choir."—Chicago Tribune.

is now attracting attention in all parts of the world, on account of the marvelous discoveries of gold which have been made in that vicinity. The Northwestern line, with its unrivaled equipment of solid vestibuled trains of palace sleeping cars, dining cars, and free reclining chair cars, daily between Chicago and Colorado, offers the best of facilities for reaching Cripple Creek. For tickets and full information apply to agents Chicago & Northwestern Railway.

If the Baby is Cutting Teeth. Be sure and use that old and well-tried remedy MRS. WINSLOW'S SOOTHING SYRUP for children. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

## Half Rates to Milwaukee.

On account of the republican state convention, the Northwestern line will, on March 17 and 18, sell excursion tickets from stations in Wisconsin to Milwaukee and return at half-rates one fare for the round trip—good for return passage until March 20, 1896, inclusive. For tickets and full information apply to agents Chicago & Northwestern Railway.

Big line of boys' sweaters at Ziegler's 50 cents to \$1.50.

## The Influence of the Children.

Only think, if there was never anything anywhere to be seen but grown-up men and women! Every infant comes into the world like a delegated prophet, the harbinger and herald of good tidings, whose office it is to turn the fathers' hearts to the children and to draw the disobedient to the wisdom of the just. A child softens and purifies the heart, warming it and melting it by its gentle presence; it enriches the soul by new feelings and awakens within it what is favorable to virtue. It is a beam of light, a fountain of love, a teacher whose lessons few can resist. Infants recall us from much that engenders and encourages selfishness, that freezes the affections, roughens the manners, indurates the heart. They brighten the home, deepen love, invigorate exertion, infuse courage and vivify and sustain the charities of life. It would be a terrible world, I do think, if it were not embellished by little children.—Thomas Binney.

## Said of Ingersoll.

I do not know that Ingersoll will ever accept the Divinity of Christ as a truth, but if he is ever converted it will be by force of examples along practical lines. Mr. Ingersoll has been a power, because much of what he says is true—and the people know it. We will never win him by abuse. His burning words have made even the clergy think.—Rev. John Rusk.

## All Broke at Once.

"So you took your family to the seashore?" said the facetious man.

"I did," was the melancholy reply.

"Where there is such grandeur in the breaking of the waves?"

"Yes."

"And the breaking of the engagements?"

"Yes; and the \$20 bills."

## A Political Tinge.

Dukane—Has Mr. Cleveland's duck-hunting expedition any political significance?

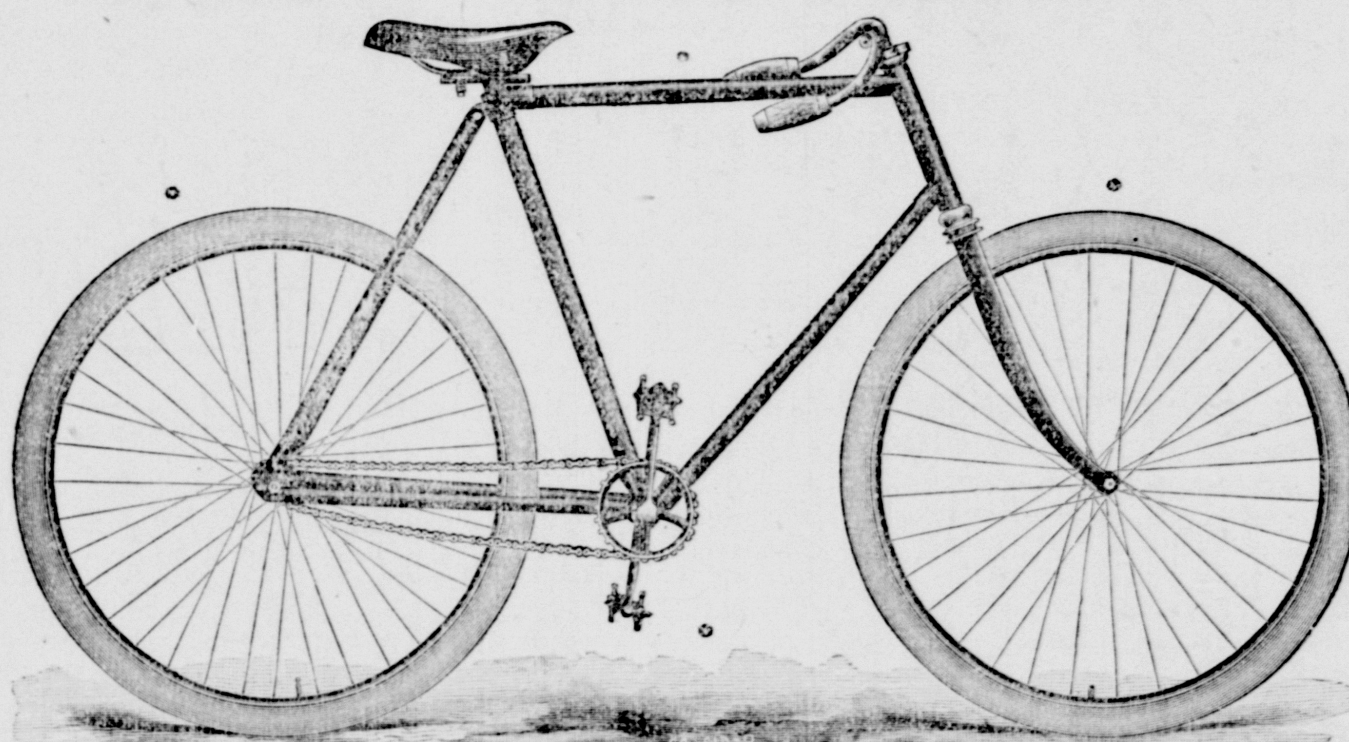

Gaswell—I don't see how it can have any.

Dukane—Doesn't it bring his canvas-bag?

Why is it that one man is old and decrepit at 45, and another hale and hearty at 80? It depends on the care he takes of himself. Often a man's body gets out of repair—the trouble grows until it lays him out in bed. Whenever a man feels that he is not quite as well as he ought to be, whenever he is listless, without energy and without vitality, whenever he finds that he is losing weight and that his ordinary work gives him undue fatigue, he needs Doctor Pierce's Golden Medical Discovery. If he keeps on working with his liver inactive and his blood impure—he keeps his nerves and his body under a constant nervous strain. He will not be hearty when he is old. The "Golden Medical Discovery" cures many so-called diseases because nearly all illness springs from the same thing—bad digestion and consequent impure blood. The "Discovery" makes the appetite good, the digestion strong, assimilation easy, and the blood rich and pure.
